THIS IS UNEVALUATED INFORMATION

1. Three hangars are in use at the military and training airfield at Wroslawice (N 50-36, E 16-48) near Breslau. About 10 to 15 biplanes, probably the "U-2" type, are at the field.
2. There are camouflaged underground hangars at the airfield at Wroslawice (N 53-20, E 19-38) near Cracow, which are capable of accommodating up to 40 airplanes. Only jet airplanes of the MiG-15 type are accommodated in these underground hangars. There are always several airplanes, mainly the "U-2" (U-2) type, and about two jet airplanes in the aboveground hangars. The runways are being built entirely of concrete. Large transports of cement and sand arrived at the field. The army alone is engaged in work at the airfield.
